

GIRL SCOUTS VISIT SKINNER'S FURNITURE COMPANY - On February 27, Girl Scout Troop #32 visited Skinner Furniture Company. We have been working on our "Art in the Home" badge. We were introduced to Mr. Wayne Sutley, who showed us around the store. First, he showed us different styles of furniture with different types of homes, such as country and modern-styled homes. We really enjoyed learning some things about home decorating. Troop members going to Skinner's were: Kristen Dubisar, Ashley Laney, Brandie Mann, Andrea Cardkey, Shea Freg, Lacey Nunn, Marsha Mauldin, Hope Coleman, Heather DuBose, Melissa Kidd, and troop leaders - Carol Laney and Glenda Kidd.

HORTICULTURE TIPS

By Dan J. Prestley - County Coordinator

Economic Development

Several community leaders throughout the county have been meeting with leaders from three other counties to look at the economic development needs of the area. The four counties involved are Coffee, Dale, Geneva, and Covington counties.

The purpose of this group is to explore the possibilities of improving the economic needs of the area. By working together there is a possibility of economic development. By sharing ideas and resources then the whole area can benefit. It is a known fact that if one particular community in one of these counties receives an economic boost, it will be a plus for all of the communities in the area.

The first meeting of the group was held in December of 1989. At this meeting there were 64 people representing four different and seven municipalities. The group decided to send a representative from each county, municipality and the Chamber of Commerce to serve as

a steering committee. This group has met twice and has decided that a monthly meeting can be beneficial to the area. At the March meeting there were several projects and activities outlined for future.

Attending from Coffee County were Bill Brunson of Elba; Joe Rutkowski of Enterprise; W. C. (Bud) Goodson of New Brockton; Gene Riddle of Elba; Jackie Thompson of Elba; Jim McQueen of Enterprise; Herb Gandy of Enterprise; William E. Cooper of Enterprise; Jeff Benbow of Elba; Doug Kendrick of Elba; and Max Ellis of Enterprise.

BRAINSTORMS

With Ferrin Cox

A lady in Boulder, Colorado who enjoys playing the piano has gotten into so much trouble with a neighbor that the neighbor took her to court. She was charged a \$30 fine. Also in future she must play pianissimo, which probably still doesn't satisfy the grumpy neighbor. Softly or however, that neighbor just doesn't like piano playing. At our house we have, etc. and sometimes lessons, flute too. I don't know what we did. But we are glad we did. Right now the sweetest thing we can here is for our daughter to come home sit down and spend an hour or so playing "her" piano. We can listen to her, read a book or take a nap and not be bothered one bit. Maybe one day soon our oldest son will come for a visit, break out his guitar and sing a few bars of a familiar tune. Either us the grumbling Colorado neighbor is a bit mixed up and we think we know which one.

Representative Jimmy Holley is supporting several bills in the Alabama legislature that require recycling. They would require state agencies to both recycle their paper and to purchase recycled paper for use in their offices. We think this is a good move. Sometimes we have seen governments require or encourage the public to do a good thing. This is shown as the worst offender of the policy themselves. This way Alabama will be setting an example for us and at the same time getting some first hand knowledge of the problems associated with recycling. Good idea Jimmy!

We are really enjoying some great weather in this part of the country! The unusually early spring has also got the flowers blooming early. We were riding around admiring the flowers last Friday and marveled at the pretty azaleas, dogwoods and even the wisteria vines that have gone wild. If you haven't noticed these beauties within the last week, we urge you to "show and smell the roses!"

The proposal presented to the Elba School Board to use the old Mulberry gym for recreation and meeting place for civic groups has merit. However we support the school board in opposing taking education funds that are in short supply already and using them to renovate and maintain the facility. We need to keep our education money in education. The gym was dropped from regular school use years ago because it wasn't practical to haul students back and forth and still meet other class schedules. This facility isn't a bit closer to the school than the old gym. It is in use and needs to be made of the best materials. And we have to come under the recess programming of the city. Yet there are no extra funds there either, so any plan, however noble, must wait for a windfall of money or one of those federal grants that are getting more and more elusive as the folks in Washington are also under pressure to balance their budget.

The Coffee County Democratic Committee met Saturday morning and only two cars showed up. Only a few weeks ago this same meeting of the Democratic Committee would have attracted a whole bunch of politicians and a whole bunch of qualifiers. There wasn't a single surprise as two incumbents did as their were expected to do and a lone announced challenger for the sheriff's office qualified.

We have a personal opinion that virtually all humans have a "breaking point" at which we would become less than a perfectly honest person. The point is at different levels for each of us. We have never found our threshold, at least in the area of money. However we have an idea that if we walked up on something like that station wagon found in Ft. Lauderdale, FL with \$2 million in small bills . . . we might have found our retirement fund! Law officers found traces of drugs on the money and no one wants to claim it, leading them to suspect this was drug related. It sure would buy a lot of fish bait for a grumpy of country boy.

POLICE REPORT

The Elba Police Department's activity for the week beginning Tuesday, March 6 included the investigation of three felonies - incidents, three thefts, one burglary, one harassment, communication, one robbery, five criminal mischief, and one assault.

Miss Hudson To
Wed Mr. Morrow
Saturday, March 17

Miss Anna Aleah Hudson and Mr. James Blue Morrow will be united in marriage on Saturday, March 17, 1990, at 3:00 p.m., at the Elba First United Methodist Church, Elba, Alabama.

A reception will follow in Enterprise, at The Lobby.

All friends and relatives are invited to attend.

Brunson - Green
Share Vows

On February 16, 1990, Ms. Cecilia Wayne Green of Dothan, Alabama, and Mr. Foyel D. Brunson, of Pinckard, Alabama, were married in a private ceremony in Dothan, Alabama which was attended by several relatives and a host of friends. The ceremony was conducted by Rev. Jimmy Albritton, of Dothan, Alabama.

Ms. Cecilia is native of Brewton, Alabama. She is the daughter of Cecil and Rita Morgan of Brewton, Alabama. Mr. Brunson is originally from Elba, Alabama. He is the son of the late Conner and M. E. Brunson of Elba, Alabama.

A reception followed the wedding and after a wedding trip to Biloxi, Mississippi, the couple and their three children, Jason, Pamela, and Kelly, are making their home in Pinckard, Alabama.

**Miss Scofield And
Mr. Weeks Honored
With Pantry Shower**

Miss Tabitha Scofield and Mr. Gary Weeks were honored with a pantry shower on Saturday afternoon, March 3, from 2:00 until 4:00 p.m. The shower was held in the community room at the SouthTrust Bank in Elba, Alabama.

There were approximately 25 guests who were greeted at the registry table by Miss Kimberly Scofield.

After refreshments were served, the honorees received assocted items to fill their pantry. The hosts presented the honorees with a beautiful floral arrangement with many pretty items.

Honorees were Mrs. Barbara Nelson, Mrs. Virginia Berry, Mrs. Evelyn Tillis, Mrs. Lorett Ringer, and Miss Cindy Jacobs.

**Miss Watson And
Mr. Brown To
Share Vows**

Mr. and Mrs. Robert E. Watson of Haines City, Florida are proud to announce the engagement and forthcoming marriage of their daughter, Yella D. Watson, to Larry C. Brown.

The bride's eel is the granddaughter of Emmitt Watson and the late Mrs. Rosie Watson of Elba, Alabama, and the late Rev. Alvie Russell of Haines City, Florida, and Mr. and Mrs. Williams of Lake Wales, Florida.

The prospective groom is the son of Mr. and Mrs. Lee Brown of Troy, Alabama, and is presently employed with Wiley Sanders of Troy.

The wedding will be an event of March 23, 1990 at the Bradniges Emmanuel Holiness Church, at 7:30 p.m. in the evening.

All friends and relatives are invited to attend.

Peak - Deupree United In Marriage

Mrs. Hodge

Mr. Hodge And Miss Rushing Share Vows

Catherine Jessica (Katie) Rushing and William Jason Hodge were united in marriage on February 17, 1990, at 6:00 p.m., in the First Baptist Church of Elba. Dr. Doug Dorrell performed the candlelight ceremony.

Katie is the daughter of Dykes and Linda Rushing. Her grandparents are Mr. and Mrs. Fulton Spurman and the late Mr. and Mrs. John Rushing, Jr.

Jason is the son of Jackie and Pat Hodge. His grandparents are Mr. and Mrs. Fletcher Hodge and Mrs. W. O. Johnson, and the late W. O. Johnson.

Stacy Ward served as maid of honor; Jessie Bratzell, three of the bride's flower girls; Karen Ellis registered guests.

Best man was Chris Hodge, brother of the groom, and groomsman was Taylor Rushing, brother of the bride. Officiant was Chad Tindall, a Christian Fleming.

A reception followed in the church fellowship hall. The bride's cake was served by Cynthia White and Robin Ross. Punch was served by Catina Beck and Tonya Bryan. The groom's cake was served by Michelle McLendon, Mrs. Jesse Bratzell, Stacy Ward, Chad Tindall, Christian Fleming, and Taylor Rushing.

A bridesmaid luncheon in honor of Miss Katie Rushing was given at 12:00 noon on Friday, February 17, 1990, at the home of Rhonda and Matt Stephens.

Honorees were Mrs. Lura Ennis, Mrs. Frances Jacobs, Mrs. June Grantham and Melissa May, Mrs. Rhonda Stephens, Mary and Elizabeth Williams, and Mrs. Karen Ellis.

Those attending were: Katie Rushing, Linda Rushing, Pat Hodge, Mrs. Fletcher Hodge, Mrs. W. O. Johnson, Mrs. Jesse Bratzell, Stacy Ward, Chad Tindall, Christian Fleming, and Taylor

Rushing.

Mr. And Mrs. Deupree

Sheri Lynn Deupree of Elba and Mr. Ricky L. Peak of Geneva were united in marriage on Saturday, January 20, 1990, at three o'clock in the afternoon at the First United Methodist Church of Elba.

Master Job Lee Bowers, son of Bud and Ruth Bowers of Elba, rang the church bell signifying the beginning of the ceremony.

The double-ring ceremony was performed by Jerry Deupree, of Sycamore, Alabama, pastor of the Sycamore United Methodist Church, under whose aegis the bride was.

The bride is the daughter of Mr. and Mrs. William T. Deupree, Jr., of Elba. The groom is the son of Mrs. Nellie Peak and the late Mr. Roy H. Peak of Geneva.

The front entrance of the church was decorated with a boxwood garland draped over the rails and tied with mauve satin bows. Matching greenery wreath with the bride's chosen colors graced each entrance to the sanctuary.

On either side of the center of the church pews markers of floral arrangements accented with satin ribbon of mauve leading to the altar. The choir loft held a large oval candelabra form, with a 15-branch and two spiral candelabras. Positioned on each side of the 15-branch candelabra both holding two branching tapers accented with jade palms. The choir rail was a draped with boxwood garland and hanging floral arrangements were appropriately situated on the rail. A massive sunburst on the floor in the center of the oval candelabra.

Marshall's effective team ministered to our church members as we did our best to missional our actions," Reverend Welch explains. "After graduation we were led into home missions ministry and pastoring stateside. How thrilled were that the door to foreign missions ministry was opened to us. We could never say God led us through the educational background and home missions pastoring to prepare us for the ministry in Africa."

The public is invited to attend the service at 10:00 a.m. on Saturday, March 18, and experience at least indirectly what Reverend Welch describes as "the joy of being involved with students and church planning."

Reverend Ralph Welch To Speak At Elba Assembly Of God March 18th

Reverend Larry Powell, pastor of the Elba First Assembly of God Church, 1351 Highland Drive, would like to announce that Reverend Ralph Welch, a veteran Associate of God missionary appointed to South Africa, will be guest speaker on Sunday, March 18, at 10:50 a.m.

From 1978 to 1987, Reverend Welch and his wife, Glenda, ministered in Soweto, South Africa. It is a West African nation of about 4 million citizens and about the size of South Carolina.

The Welches' effective team ministered to our church members as we did our best to missional our actions," Reverend Welch explains. "After graduation we were led into home missions ministry and pastoring stateside. How thrilled were that the door to foreign missions ministry was opened to us. We could never say God led us through the educational background and home missions pastoring to prepare us for the ministry in Africa."

The public is invited to attend the service at 10:00 a.m. on Saturday, March 18, and experience at least indirectly what Reverend Welch describes as "the joy of being involved with students and church planning."

The church is the body of Christ (I Corinthians 12:27); therefore, the church ought to do what Christ did in His body.

The message for doing the work of Christ is the LIFE of Christ Himself, Jesus said (John 14:6), "I am LIFE." LIFE healed sickness, overcame death and cleansed sin. This LIFE is imparted to the church through the Holy Spirit and the church cannot function properly without being Spiritual-filled.

How can we experience the LIFE of Christ in our churches to allow the central function of the church to restore people to a right relationship with God. People in general do not recognize their desperate need of God and it is the business of the church to tell them.

Secondly, the central message of the church is to love and forgive, made possible by the sacrifice of the Word of Jesus.

Third thing would be for the church to become God-centered rather than man-centered. Most of

Child Life Support & CPR Courses Offered

Once again the American Heart Association, Elba Chapter of Cofield County, will offer a CPR and Child Life Support course.

The dates are March 20, 22, 24

from 6:00 - 10:00 pm each night. If you are interested in enrolling or need more information concerning these courses, contact Dr. Donald Crook at 897-2059.

SPIRITUAL FREEDOM

Spiritual death is the separation of man from God with sin being the cause (Isiah 59: 1 & 2). Spiritual freedom (Salvation) is to have those sins washed away by the blood of Christ. (Acts 22:16). Spiritual freedom is the ultimate type of freedom and is attainable only from God. Sin is committed against God, and God's Word is the standard of God's will. Those who sin are sinned against, it must be God who determines the basis of freeing one from sin. God forgive my sins? Can I know when I have forgiveness of sins and sins from that sin?

It surely did look like a lovely spring day when the Senior Citizens of Cordelia Street met for their weekly meeting at the HRDC Building on Simmons Street on Monday, March 12, 1990.

Some of our members were downtown, and others played dominoes and visited. Quite a few of our members were absent and we thought of them.

This is the time of year when a lot of attention is about flowers and gardens. Most everyone has flowers in their yards.

A delicious lunch was served to the following:

Frank and Lennie McCollough, Mattie Lou Goodson, Minnie Da-

vis, everyone 50 and older is invited to attend.

AARP meets the third Tuesday evening of each month in the Elba Senior Citizens Center.

**VIEWS FROM
THE PRESSBOX**

BY RICKY MULARZ

Some mornings I just doesn't pay to get out of bed Saturday morning. I had to get out of bed at 5:30 a.m. to get ready to make the trip up to Auburn to watch the Brantley Bulldogs play in the state basketball tournament. My wife asked me why I was up so early, and after hearing my explanation insisted that Brantley didn't play until 10:00, not 9:00 as I said and read in the paper. Well, I left at 6:30 anyway to get there in plenty of time for the 9:00 game and low and behold, after getting to the arena it was 8:30. The coliseum didn't open until 9:15 which meant almost a one-hour wait, but a bored guard was happy to find someone to talk to and at least I got to wait inside. Maybe next time I'll get my wife to coordinate my travel plans.

BLACK & GOLD GAME DISPLAYS TIGERS OF '90

The 1990 edition of the Elba Tigers took to the field last week for their first game of the season. The results were mixed. The fans were plenty of mistakes, as were to be expected, most of the fans left the stadium convinced that the Tigers will make another run at the state title next season.

The Tigers lost their entire fleet of running backs last year and this is interesting to see how the new batch of runners did. The backs of Reginald Head or Tim Caldwell were there with promise in the backs who did carry the ball and by the time the season starts in September don't be surprised if the Tigers are just as good as ever at running back. David Rowe showed speed and desire at tailback for one team, while Jonathan Lawrence gave it a good effort for the other team, as did Greg Thigpen. The fullback spot was also a possible problem due to the loss of two-year starter Anthony Brooks and an injury to ex-starter Ronald McKinnon; however, Shane Blanton was the Tigers' leading ground gainer and upcoming sophomore Jamie Brockton wasn't far behind. From my spot on the sideline the fullback spot seemed in good hands.

Quarterback John Jacobs played behind Kevin Matthews last season waiting to get his chance, and if Jacobs plays like he did Friday night, he will certainly make most of the chance next season. Jacobs handled the offense well and when he did, he did it with both skill and authority. Jeff Kirkland handled the chores for the other squad and his team had some costly turnovers, but he showed a lot of athletic ability and will definitely be waiting in the wings for his chance to come.

The Black put the ball in play at the 45-yardline following the turnover. The Gold recovered the ball and again began a march toward the Gold goal, only to once again stop itself with a turnover.

A 29-yard scamper by Enzil Thomas was the big play in the march; however, on fourth down, Head stepped in front of a Kirkland pass and raced untouched 82 yards for another Gold score. David Rowe added the two-point conversion and with :05 left in the first quarter the Gold had an 18-0 advantage.

The touchdown came with :41 left in the half when quarterback John Jacobs went back to pass, found no receivers open and then broke three tackles as he rammed 29 yards for a 10-0 lead.

Joel Kirkland hit tight-end Chris Tidwell with the two-point conversion and at the half the Gold went in with a 24-0 lead.

SPORTS**Black posts 30-6 win over Gold in Elba spring game**

The Elba Tigers concluded their spring football practice last Friday night with the annual "Black & Gold" intrasquad game, with the Gold squad romping to a lopsided 30-6 victory.

The Black received the opening kick and wasted little time getting a drive toward the Gold goal-line. Fullback Shane Blanton bulldozed 24 yards on 4 carries and quarterback Joel Kirkland passed to the Black's first down receiver, the Gold's 33-yardline; however, a fumble halted the march as Gold defender Kasey Reddy pounded on the loose football to kill the threat.

The Gold needed only 9 plays to cover the 67 yards to pay dirt, with David Rowe adding the 18-yard pass from John Jacobs to David Rowe on fourth down and 12. Rowe gained 21 yards during the scoring drive and Anthony Brashears added 18, while it was the work of Jonathan Lawrence for the second score and also Jacobs, who ran in the two-point conversion, giving the Gold an 8-0 lead, with 3:24 left in the opening stanza.

The Black put the ball in play at the 45-yardline following the turnover. The Gold recovered the ball and again began a march toward the Gold goal, only to once again stop itself with a turnover.

A 29-yard scamper by Enzil Thomas was the big play in the march; however, on fourth down, Head stepped in front of a Kirkland pass and raced untouched 82 yards for another Gold score. David Rowe added the two-point conversion and with :05 left in the first quarter the Gold had an 18-0 advantage.

The touchdown came with :41 left in the half when quarterback John Jacobs went back to pass, found no receivers open and then broke three tackles as he rammed 29 yards for a 10-0 lead.

Joel Kirkland hit tight-end Chris Tidwell with the two-point conversion and at the half the Gold went in with a 24-0 lead.

The two teams swapped fumbles

drive was halted.

The Gold got the ball back at the Black 40-yardline late in the half and this time took advantage of the excellent field-position to add to its lead.

The touchdown came with :01 left in the half when quarterback John Jacobs went back to pass, found no receivers open and then broke three tackles as he rammed 29 yards for a 10-0 lead.

David Rowe got a chance to add to his lead midway through the second quarter when Will Moore intercepted a Black pass and returned it to the Black 25-yardline; however, two plays later Black defensive back Joel Kirkland picked off a pass at the 11-yardline and the

initial possessions of the first half, with Scotty Hooks recovering a bobble for the Black and Todd Killingsworth getting a fumble for the Gold.

The Black got a break midway through the third quarter when Jonathan Lawrence picked off a Gold pass and returned it to the Gold 45, and this time it looked as if the Black would finally get on the board.

Joel Kirkland hit tight-end Chris Tidwell with three passes for a total of 35 yards to move the Black near the Gold goal-line; however, disas-

ter struck again when Gold defensive back David Rowe intercepted a pass at the 2-yardline and dove down for another Gold touchdown. The two-point try failed, but with :37 left in the third quarter the Gold had the win with a 30-6 lead.

The Black avoided the shutout on its next possession as it marched 67 yards in 5 plays to go on the second half. Jonathan Lawrence led to Tidwell checked for 32 yards during the drive, while the score came when fullback Shane Blanton broke through a hole and rambled 32 yards to pay dirt. The two-point try failed, but with :37 left in the third quarter the Black was on the board and the Gold lead was cut to 30-6.

Both teams mounted drives in the final stanza; however, neither team could get back in the endzone and at the final horn the Black had the win.

James Brockton gained 62 yards on 9 carries to lead the Gold running attack, while David Rowe added 29 yards on 14 carries. Anthony Brashears gained 38 yards on 3 carries and John Jacobs added 24 yards on 5. Shane Blanton led the Black, and all runners, with 80 yards on 16 carries, while Jonathan Lawrence and Joel Kirkland both gained 23 yards.

Chris Tidwell was the game's leading receiver as he pulled in 7 passes for 86 yards.

Bennie Kirkerson was 15 tackles and 2 assists, and Todd Killingsworth with 11 tackles and 1 assist. Curran Caldwell made 7 tackles, Marvin Luckett had 6 stops and Kasey Reddy made 5 tackles, one fumble recovery and one pass interception.

The Black defense was led by Shane Blanton with 8 tackles and 1 assist, while Ronnie Edwards added 7 tackles and 2 assists and Scotty Hooks made 5 tackles and 1 assist.

On the initial possessions of the first half, with Scotty Hooks recovering a bobble for the Black and Todd Killingsworth getting a fumble for the Gold.

The Black got the ball back at the Black 40-yardline late in the half and this time took advantage of the excellent field-position to add to its lead.

The touchdown came with :01 left in the half when quarterback John Jacobs went back to pass, found no receivers open and then broke three tackles as he rammed 29 yards for a 10-0 lead.

**ROUND AND ABOUT
WITH ERIA -897-2006**

Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and thieves break through and steal:

But lay up yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal:

For where your treasure is, there your heart will also be.

The light of the body is the eye; if therefore thine eye be single, thy whole body shall be full of light:

If thine eye be evil, thy whole body shall be full of darkness. If therefore the light that is in thee be darkness, how great is that darkness!

No man can serve two masters: for either he will hate the one, and love the other: or else he will hold to the one, and despise the other. Ye cannot serve God and mammon.

Thinking of you, praying for you - Rodie Rydel, Nancy Cole, Everett Asby, the Cole family, the Johnson family, Pearlie Tillis, Hannah Coleman, Buford Kelley, L. T. Wade.

It was also suggested by Eria Belcher that a Black History Month and the Black History Centering and voting would benefit black and whites and other races as well.

Winzel said, "Thanks to those that accomplished and supported him in this endeavor. These ideas are God-inspired ideals and we want to give them a try. We will have hope and will keep a positive attitude. We can't ever do anything by ourselves, that's for sure."

We will continue to explore other options and plan before we work and pray for the plan.

The struggle goes on:

MARLAR RENE' RIDEAUX
Marlar Rene' Rideaux, a native

of Elba, is the lovely daughter of Ruth and Lucile Rideaux, of Elba, Alabama.

She is a 1978 graduate of Elba High School. She attended Troy State University, majoring in Broadcast Journalism, Minot-Pelton Science, and Criminal Justice. She is a member of the Rock Head M. B. Church, Elba, Alabama. Rev. A. R. Williams, pastor, and was a member of the Young Adult choir.

Marlar lives in Albany, New York, and is presently an employee of the State Federal Credit Union, located in Rockefeller Center, the state's capitol, as a cash teller.

Marlar is working with my friends and I also have relatives living in Albany, that makes it easier living in New York. Although I attend Metropolitan Baptist Church, Albany, I'll always remember Rock Head M. B. Church.

Marlar has one brother, Rodrick Rideaux, Brundidge, Alabama. She is the granddaughter of Tillman Lindsey, Elba, and the late Nettie Lindsey, and the late Clark Rideaux, Beaumont, Texas.

God bless you Marlar. I am very happy for her and the one, and the other: else she will hold to the one, and despise the other. Ye cannot serve God and mammon.

It was also suggested by Eria Belcher that a Black History Month and the Black History Centering and voting would benefit black and whites and other races as well.

Winzel said, "Thanks to those that accomplished and supported him in this endeavor. These ideas are God-inspired ideals and we want to give them a try. We will have hope and will keep a positive attitude. We can't ever do anything by ourselves, that's for sure."

We will continue to explore other options and plan before we work and pray for the plan.

The struggle goes on:

According to the City of Elba - Mayor Fred Moore, welcome to Elba. Mayor Fred Moore, welcome to Elba. Belcher, Other, appear on the program were: Deacon Robert Hooks, Enterprise, Alabama; Sister Ollie Henderson, Elba, Alabama; Patti Williams, Porter, Evelyn Gulley, Lucinda Carpenter, Mozell McCormick, Deacon Grover Belcher, Mrs. Neva Donaldson.

Thinking of you, praying for you - Rodie Rydel, Nancy Cole, Everett Asby, the Cole family, the Johnson family, Pearlie Tillis, Hannah Coleman, Buford Kelley, L. T. Wade.

***The Semper Fidelis Club will meet at the First Baptist Church, Sunday, March 18, 1990, at 3:00 p.m. at the Pleasant Grove Missionary Baptist Church, Copeville Roads, Enterprise, Alabama.

The theme is "Bridge Builders of Service."

You are cordially invited to attend to meet our heroes for this occasion. Mrs. Bonnie Helms - president; Mrs. Ida Martin - program chairwoman; honoree from Elba - Mrs. Gladys Yelverton.

***Invitations

***Mrs. Bama Tyson invites her relatives and friends to the 1990 Birmingham Celebration, Sunday, March 18, 1990, at 12:30 p.m. at Mt. Chapel Baptist Church, Sasser's Cross Roads.

***A Birthday Celebration for Mrs. Burnice Leonard will be held on Sunday, March 18, 1990, Eclectic, Alabama.

The Belcher family invites all relatives and friends to attend.

***Alan Belcher, Lucile Rideaux, Vera Williams, and Eria Belcher, traveled to Birmingham, Alabama last Friday evening to meet Marler

***Today is a good day. Be grateful.

**USDA Announces
1990 National Peanut
Poundage Quota**

Under Secretary of Agriculture Richard T. Crowder recently announced the national peanut poundage quota of 1,560,000 short tons, or 312,000 million pounds, for the 1990 marketing year. The quota is 120,000 short tons more than the 1989 quota.

Crowder said that the U. S. Department of Agriculture is required by law to announce the final national poundage quota for the 1990 marketing year by December 15.

As required by the Agricultural Adjustment Act, as amended, that national poundage quota for the 1990 crop has been set at a level that is to provide the estimated quantity of peanuts that will be used to domestic edible uses, seed and related uses in the 1990 marketing year. The marketing year begins August 1, 1990.

The 1990 crop national poundage quota will be allocated to each state based on the state's share of the 1985 crop national poundage quota.

Increases in a state's quota will be allocated among qualifying farms in accordance with prescribed procedures.

In January 1986 referendum, peanut growers approved poundage quotas for the 1986-1990 crops.

HORTICULTURE TIPS

Dan Presley County Agent Coordinator

Fertilizing Lawns

The unusually warm weather we are having may encourage you to fertilize your lawn to early. Our recommendation is not to apply spring fertilizer to lawns until after the 15th of March.

Should we have a severe cold

snap after you fertilize, it could cause serious damage to your lawn, particularly Centipede lawns. I have seen nurseries that force Centipede grass out early that lost their complete stand because of late cold.

Be patient! Don't fertilize too soon.

Pruning

Now is the time I would suggest pruning any of your shrubs except Spring flowering shrubs. Pruning at this time of the year will allow the plant to recover very quickly and the stubs from pruning will show a very short time.

I suggest pruning now and not shearing. Shearing is where you cut straight across the top of the plant where you take off branches down within the plant. This will cause the plant to renew itself from many different levels in the plant instead of just on the outer edge if you shear it.

So what is the chance of losing our peach crop? It takes temperatures of 26 degrees F. for four to six hours to kill an open bloom. It takes a temperature of 15 degrees F. to kill the closed bloom at the stage they are now. We do have plenty of flower buds left that have not come out yet for us to have plenty of peaches.

If you have not pruned your fruit trees yet, there is plenty of time. Even if the tree is in bloom, you can prune it. But trees can be pruned up through June.

Be on the lookout for insects, especially lygus bugs and stink bugs, and be ready to spray them immediately. If your fruit trees are not in bloom yet, spray them with a fungicide and insecticide on until the bottom bloom and then just with Captain 50 WP while blooming and then back with an insecticide and fungicide mix after 90 percent of blooms have fallen. Insecticide appears to do a good job on one insect sting at that stage can cause and distort the whole fruit for the rest of the season. So get on a good spray schedule immediately.

Muscadines - People are asking is it too late to prune muscadines, when the sap has already started to flow? The answer is go ahead and prune them.

To prune muscadines first thin out the dead and diseased wood and all the vines that generally just get in the way. Then remove all the canes from the cane bank that are permanent arms of those canes needed to replace damaged or dead arms. Then cut all the previous year's growth which is lighter brown in color. Cut this down to just four buds per cane. You need new wood to fruit and this grows off last year's growth.

If you have properly pruned, fertilized, watered and cared for, muscadines can yield from 4 to 10 tons per acre.

Mr. Murdoch, a CPA, came to National Insurance Education Program as controller for a CPA firm in August of 1970. He served on the company's Board of Directors, and is senior vice president of the company's affiliate, Fine Company, and a member of its board.

He and his wife, Elizabeth, have three sons, and reside in Elba.

Mr. Outlaw joined the company in June of 1987, having worked previously with the CPA firm of Jackson, Thornton & Company, and is "counting manager" for Nor-met Industries, both of Montgomery. His is currently controller of the Life and Fire Companies.

Martin is the son of Kenneth and Faye Martin, and is a graduating senior at Kinston High School, where he is student government president.

RX: Friendship
Friendship and affection play an important role in life. But is it true that friends can actually enhance our health?

Psychologists examining the subject believe that making and having friends is key to good health - both physical and psychological.

The psychological advantages of friendships are well known. Dr. Richard Boutin, psychologist at Northwestern University, Evanston, Illinois, "Friends offer enrichment of life, the pleasure of being with others."

The physical consequences of friendship are equally noteworthy. When people feel stress, they often seek out others. Talking with friends lowers the heart rate and blood pressure, Dr. Boutin says.

Dr. Boutin theorizes that people who have friends live longer than those without, pointing as proof to studies that married people outlive unmarried. "These studies show that it is the close personal relationship - having a confidant - that counts," he explains.

What makes a human such generous animals, needing friends for pleasure and health?"

"It might be biological," Dr. Boutin reflects. "The need for humans to band together and face the threats of the environment is part of our evolutionary heritage."

**Calista Fleming
Receives Scholarship**

Dr. Jack Hawkins, Jr., Chancellor of the Troy State University System, recently announced that Calista Fleming, Elba, has been named recipient of a George C. Wallace Academic scholarship to Troy State University.

Miss Fleming is the daughter of Mr. and Mrs. Robert Fleming, and is a graduating senior at Elba High School, where she received the President's Award.

**Joe Martin
Receives Scholarship**

Dr. Jack Hawkins, Jr., Chancellor of the Troy State University System, recently announced that Joe Martin, of Kinston, Alabama, has been named recipient of a George C. Wallace Leadership scholarship to Troy State University.

Joe is the son of Kenneth and Faye Martin, and is a graduating senior at Kinston High School, where he is student government president.

It might be biological," Dr. Boutin reflects. "The need for humans to band together and face the threats of the environment is part of our evolutionary heritage."

Danny Kelley looks too young to be retired. And he is. But it was a goal he set early in life and he successfully achieved it. Enterprise State Junior College helped him reach it.

Danny was the first student to register for classes at ESJC in 1965. "The first day of registration, a friend of mine and I thought if we could get there about seven or eight o'clock, we would be the first to register," says Danny. "When we went into the Methodist Church where registration was being held, Mr. Delano Anderson and Mr. John B. Logan drove up in a truck with desks and other items to unload. They did not have any help so we pitched in to help them. Mr. Anderson asked if we were here to register and he went ahead and signed us up."

Looking back, Danny has many good memories of ESJC. "The thing which makes the college so precious in my memory is that we all cared for each other; we cared for the teachers; we cared about the image of the college," Danny says. "If you want to think about assets in the community, the college is probably the greatest asset and I am glad I was a part of it."

And while Danny was a part of it, he says he enjoyed every day. "Mr. Anderson was a super teacher and I or anyone else had a problem, we could talk to him. He was a good counselor. He was one of the people who was inspirational to me," says Danny.

Danny was truly inspired at ESJC. His educational experience continued with stints at Auburn University, University of Maryland, University of Frankfort in Germany, and Cambridge England. He studied international trade and commerce. He served as a Green Beret in the Army and worked for the Department of Defense in Army and Air Force Exchange Services. He is now enjoying his retirement and overseeing his investments. He is also enjoying his three children. Danny M. Kelley, II is currently attending the United States Army Military Academy at West Point. Julie Elizabeth is attending Faragut in Knoxville, Tennessee. And John Carter attends Holly Hill in Enterprise.

You, too, can reach your goals at ESJC, where it's a great place to start and a great place to start over.

Register now! Spring Quarter classes begin March 28. Late registration continues through April 2 for day classes and through April 3 for evening classes. Call 393-ESJC or 1-800-874-3399 for more information.

Peaches

This winter we have had the chance to buy peaches for our friends in Coffee County. The number of cold hours necessary to cause a fruit tree to break dormancy and bloom. All of our peach trees are blooming about three to four weeks ahead of normal. Some of our peach trees I've noticed are already 90 percent bloomed.

So what is the chance of losing our peach crop? It takes temperatures of 26 degrees F. for four to six hours to kill an open bloom. It takes a temperature of 15 degrees F. to kill the closed bloom at the stage they are now. We do have plenty of flower buds left that have not come out yet for us to have plenty of peaches.

If you have not pruned your fruit trees yet, there is plenty of time. Even if the tree is in bloom, you can prune it. But trees can be pruned up through June.

Be on the lookout for insects, especially lygus bugs and stink bugs, and be ready to spray them immediately. If your fruit trees are not in bloom yet, spray them with a fungicide and insecticide on until the bottom bloom and then back with an insecticide and fungicide mix after 90 percent of blooms have fallen. Insecticide appears to do a good job on one insect sting at that stage can cause and distort the whole fruit for the rest of the season. So get on a good spray schedule immediately.

The FLMI designation after completing a rigorous ten-course program of study prescribed by the Life Management Institute, the education division of LOMA, LOMA is the nation's research and education arm of life and health insurance companies and other financial institutions.

The FLMI Insurance Education Program offers students a solid background in life and health insurance principles and a broad perspective of insurance company operations. It is the largest university-level professional education program in the world.

Mr. Murdoch, a CPA, came to National Insurance Education Program as controller for a CPA firm in August of 1970. He served on the company's Board of Directors, and is senior vice president of the company's affiliate, Fine Company, and a member of its board.

He and his wife, Elizabeth, have three sons, and reside in Elba.

***Former state bar association president Howell T. Hellin of Tuscaloosa has announced that he would enter the race to succeed retiring Chief Justice J. Ed Livingston of the Alabama Supreme Court.

***The two leading candidates for Governor of Alabama will be in Elba on Thursday of next week (March 19). Their trials cross several times during this first week of politicking and in both Elba and Opp they barely missed each other. George Wallace will speak in Elba at 2:00 p.m. and Governor Albert Brewer will speak at 3:00 p.m.

THIRTY YEARS AGO

MARCH 17, 1960
***An increase of about one-third of personnel since the last Dorsey Trailers National Convention, and a forecast of continued expansion of the Elba plant and elsewhere throughout the country were highlights of an address by Omer G. Wiedenbergh, III, president of the Dorsey Corp. at this year's convention Wednesday through Saturday, last week, at the Buena Vista Beach Hotel Biloxi, Miss.

***Ellis Dewey Hudson, son of Mr. and Mrs. Randal B. Hudson of Elba, received the degree of Master

of

Fabric Yellowing

Yellowing can appear on white or pastel fabrics as rings, spots or streaks. They are usually found on areas near openings in a polyethylene garment. This type of yellowing takes place when soiled conditions are present - alkali finishes, moisture, air pollution (nitrogen oxide) and storing garments in polyethylene bags that contain butyl rubber (BHT).

The easiest way to prevent yellowing is to avoid storing white or light-colored garments in polyethylene bags for long periods of time. The yellowing can usually be removed by laundering or dry cleaning.

COUNSELOR'S LUNCHEON - Guidance counselors from several area high schools gathered recently at Enterprise Junior College for an informal luncheon and opportunity to learn what's new in ESJC. They toured the College's new building and additions and visited a new computerized learning lab. Pictured are: Janice Strickland, New Brockton, and Dr. Joseph Talmadge, ESJC president.

Any job worth doing is worth doing well.

FRONT BLADES
For John Deere tractors 100 Series and larger. Steel construction. Concave surface for good cutting action.

HYDRAULIC TILLERS
Tiller can be set for normal or counter rotation PTO driven 30-inch width. For 300 and 400 Series. Mechanical tillers also available.

SNOW THROWERS
Choose from single- or dual-stage implements. Single: 38-, 42- or 46-in. wide. Dual: 47-in. wide. Sizes to fit all John Deere tractors.

SPRayers
Apply liquid fertilizer and other chemicals. Spray width can be set to match mower width 6- or 15-gallon capacity. For most riders and tractors.

REAR BAGGERS
Twin-hopper bushel capacity. Motor-driven 10-bushel unit also available. Models to fit all tractors and riders.

UTILITY CARTS
Four sizes: 50 to 5 cu ft to 1500 lb. 15 cu ft. Bolted steel box, removable tailgate. For all tractors and riders.

THATCHERS
Control thatch buildup lift attachment to better mowing. Double-end 7/8-inch spring tines. Sizes to fit all tractors and riders.

MOWER DECKS
Fast 5-minute hookup. Four-point suspension for smooth cut. 38-, 46-, 50- and 60-inch widths. For 200, 300, 400 Series tractors.

NOTE: Not all products available at all dealerships. Sale prices do not include tax, setup and delivery, and may vary by dealer.

NUMBER 36

Extent of flood damage unknown

Approximately 1,500 residents remain displaced from their homes as a result of the flood which submerged the downtown area of the city Saturday weekend.

As the waters of Whitewater Creek and Pea River rose, breaking the levee which for more than 60 years had protected the city, approximately 2,000 local residents were displaced.

About 300 of those people returned to their homes by late Monday afternoon, and waters receded

enough to allow large vehicles to drive through the town square Tuesday afternoon. Flood waters were expected to be gone by Wednesday, March 21.

Gov. Hunt has declared the City of Elba a disaster area, but officials still cannot begin to estimate the extent of the damage.

FEMA agents were in the Elba area Tuesday afternoon assessing the damage, but by late Tuesday would only say that damage estimates are in the millions.

FEMA - the Federal Emergency Management Agency - was scheduled to begin taking filing claim papers for residents and businesses Wednesday morning. FEMA agents will take claims from those on the west side of the river at the American Legion hall, and an additional office will be established for residents of the east side of the river. National Security is manning that center, where clothing and food is being collected for victims. In addition, hot meals are available at the Coffee County Farm Center in New Brockton. That center is being manned by

County Health Department in providing food for those who need it and in administering tetanus shots. Facilities are being provided at the Assembly of God. An additional relief center is being established in the National Security hanger at the Elba Airport. The Red Cross and FEDERA agents were in the Elba area Tuesday afternoon assessing the damage, but by late Tuesday would only say that damage estimates are in the millions.

Electricity is being restored as quickly as possible and as soon as conditions are safe, Ed Compton said.

"We have about 20 percent of the electricity restored," Compton said late Monday. "Our people are back to work. We ask that you be patient with them... They are tired and worn."

Compton said Covington Electric has been instrumental in helping to see damages on Page 3

Schools set to re-open on Monday

Elba City Schools will re-open Monday, March 26, Superintendent Lamar Foley announced Monday.

Foley said plans will be finalized as soon as local parents and students should tune in to area radio stations to determine exactly where classes will be held.

Tentative plans made last Monday were to have all students in the National Guard Armory, to rescue Elba Middle School students in Paul Windham's and National Security's hangers at the Elba Airport, and to set up Elba Elementary School at the Army Reserve Center. Foley said he was given a housing administrative office to house the administrative offices of Elba City Schools.

Child Nutrition Coordinator Roland Powell said a lunch program will be in operation by Monday. Powell said students may be served sack lunches for the first few weeks

see schools on page 2

Businesses continuing operations

When flood waters literally drowned the downtown area of the City of Elba last Saturday, only 13 businesses with active city licenses were left operational.

Rough House Restaurant, Medical Arts Pharmacy, Elba Bait Shop, Country Convenience, Honest Gene's Used Cars, Dixie Ford, Elba Tractor Co., Town and Country, Wally's Liquors, Elba Laundry, Westside Beauty Shop, Farmer's Livestock Co-Op and Bradshaw's Pest Control were not closed by the disaster.

In addition, the facilities of Elba Packing Company, National Fire Protection Security and Hayes Funeral Home were not damaged. Packing Company employees reported to work Monday.

But most merchants immediately made plans to resume operations as soon as possible.

Local doctors' offices are continuing operations.

The Courthouse was still deep in water late Sunday after waters began subsiding

Carol Fudge's was the first of many homes to be evacuated by teams of workers

Security tightened

City fathers Monday night agreed to tighten security in the downtown area.

The tighter security measures, taken to prevent looting and protect residents from dangers inside the flooded area, include the establishment of a permanent security perimeter around downtown.

The perimeter, bordered on the west by Atkinson Street, on the east by Yelverton Street and on the north by Rebecca Lane, will be manned by military police. An entrance to the perimeter is to be made from Claxton Avenue, and residents must be cleared at the U.S. Army Reserve building before entering.

Looting in the flooded areas became a problem Sunday, at which time guards were posted and spectators were no longer allowed in the area.

Officials kept all-night vigil

Elba officials pulled sentry duty for local citizens Friday night, watching the waters of Whitewater Creek and Pea River rise, making evacuation plans and eventually sounding alarms which roused people to action in the nick of time.

More than 12 inches of rain fell on Elba Saturday, causing flash flooding across the Southeast corner of the state and closing many roads in the region.

When rescue workers evacuated flash flooding victims from a mobile home on Taylor Mill Road on Friday afternoon, had no idea Carol Fudge was the first of almost 2,000 victims who would be moved from their homes within the next 24 hours.

The early flash flooding, which also caused flooding in the Mulberry area, was in the Beaver Dam Creek watershed. Those waters had subsided by midnight Friday, but Whitewater Creek and Pea River continued to rise. Whitewater obviously rose faster, reaching a height of 37 feet, or nearly four feet above its normal level.

Throughout the night, city crews worked to evacuate low-lying areas and barricade roads which crossed the levee at Whitewater Bridge, Pea River Bridge and the old railroad tracks.

Residents first were evacuated from Riverview, then from homes in areas outside the levee.

At about 10 p.m. Friday, officials closed Whitewater bridge at Smith Avenue. Hwy. 125 at Wise Mill also was closed, and rising waters also

would not hold.
